Wireless Bluetooth

Platform to Carry Arduino UNO and Breadboard
SG\$1.90

Platform to Carry Arduino UNO and 400 point Breadboard. Made of Transparent Clear Acrylic board.

[\[Product Details...\]](#)

Bluetooth 4.0 BLE
SG\$9.70

Bluetooth 4.0 BLE [\[Product Details...\]](#)

Bluetooth 4.0 USB Module (v2.1 Back-Compatible)
SG\$19.70

Add Bluetooth capability to your computer super fast with a USB BT 4.0 adapter. This adapter is backwards compatible with v2.1 and earlier, but also supports the latest v4.0/Bluetooth Low Energy. Inside lies a CSR8510 Bluetooth USB host. [\[Product Details...\]](#)

HC-05 Wireless Bluetooth Module Slave and Master
SG\$9.70

HC-05 is a Bluetooth module. It can operate as either a slave device or a master device. [\[Product Details...\]](#)

Mini Bluetooth USB Adapter

SG\$9.90

This is a handy little Bluetooth USB mini-adapter. This adapter supports Bluetooth v2.0 class 1 and has a maximum distance of up to 100m. The adapter also includes an indicator LED. Great for laptops and if you're on the go! [\[Product Details...\]](#)

PmodBT2 - Bluetooth Interface

SG\$39.00

The PmodBT[™] is a Digilent peripheral module that provides a fully integrated Bluetooth interface, giving your next project the power of wireless communication. The PmodBT[™]'s simple UART interface and profile support allow the end user to make use of the mo [\[Product Details...\]](#)

Bluetooth 4.0 HM-10

SG\$13.70

The HM-10 is a small 3.3v SMD Bluetooth 4.0 BLE module based on the TI CC2540 or CC2541 Bluetooth SOC (System On Chip). [\[Product Details...\]](#)

Bluno Bee - Bluetooth 4.0 (BLE) for Arduino

SG\$28.70

BLE Link is a communication module based on bluetooth 4.0, it uses the XBEE model which is compact and is compatible with all shields with XBEE socket. BLE Link supports both 5V and 3.3V MCUs. We've also developed Apps on both Android and IOS platform for [\[Product Details...\]](#)

Bluno Nano = Arduino Nano + Bluetooth 4.0

SG\$34.00

The Bluno Nano come in a size of a gum, the Bluno Nano is perfect for BLE projects with limited space or weight. Mesh of Arduino Nano and BLE Bluetooth 4.0 Smart [\[Product Details...\]](#)

Mini Bluetooth Module

SG\$15.90

This is a mini Bluetooth Module. Input voltage 3.3v ~ 6v, module with 3V LDO voltage regulator. Support AT command set the baud rate, name, pair password. Search and pairing automatically when the power up. Power, link status indicator. Pins - TXD, RXD, G [\[Product Details...\]](#)

Bluno = Bluetooth 4.0 + Arduino Uno

SG\$49.70

Bluno is first of its kind in intergrating BT 4.0(BLE) module into Arduino Uno, making it an ideal prototyping platform for both software and hardware developers to go BLE. [\[Product Details...\]](#)

Bluno Beetle - World Smallest Arduino Bluetooth

SG\$24.70

It is fully compatible with Bluno in instructions and procedures. Support Bluetooth HID and ibeacon modes. [\[Product Details...\]](#)

Romeo BLE mini = Arduino+Bluetooth+ Motor Control

SG\$38.70

Romeo BLE mini is a small-sized Arduino compatible microcontroller with All-in-One function. Arduino + Bluetooth + Motor Controller. [\[Product Details...\]](#)

Annikken Bluetooth Shield - create functional UI App on iOS
SG\$67.50

You can control your Arduino with your smartphones, tablets and even apple watch! Annikken Andee can help you incorporate your Android/iOS device into your Arduino project with minimal effort. [\[Product Details...\]](#)

Annikken Bluetooth Shield - create functional UI App on Android
SG\$67.50

Annikken Andee is a smart Bluetooth shield for Arduino. Control your Arduino projects with your very own smart phone. Create a functional UI on any smart phone easily. UI customization of layout with multiple on-screen buttons, sliders, text input, etc.. [\[Product Details...\]](#)

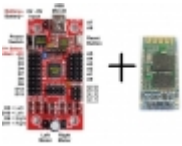

Annikken Andee U - Arduino Bluetooth Shield For Android and iOS
SG\$89.00

Annikken Andee Universal is a bluetooth shield that empowers you to design a dashboard on both iOS and Android devices. Create Arduino projects without any app programming knowledge, just use the familiar Arduino code and upload into the Arduino board, SC [\[Product Details...\]](#)

Adafruit Feather 32u4 Bluefruit LE Bluetooth Low Energy
SG\$47.70

This is the Adafruit Feather 32u4 Bluefruit - our take on an 'all-in-one' Arduino-compatible + Bluetooth Low Energy with built in USB and battery charging. Its an Adafruit Feather 32u4 with a BTLE module [\[Product Details...\]](#)

S4A EDU Arduino + motor driver + Bluetooth (Scratch for arduino)
SG\$37.70

The S4A EDU controller is Arduino compatible with built in dual motor driver with Bluetooth. The pin configuration is compatible with S4A (Scratch for Arduino) V1.5 making this board an ideal choice for educators. [\[Product Details...\]](#)

FireBeetle Board-328P with BLE4.1
SG\$28.70

DFRobot FireBeetle series are low power consumption microcontrollers designed for Internet of Things (IoT) development. This Bluetooth controller combines Bluetooth Low Energy 4.1 with Arduino controller, offering functions similar to the former Bluno ser [\[Product Details...\]](#)

FireBeetle ESP32 IOT Microcontroller (Supports Wi-Fi & Bluetooth)
SG\$28.70

DFRobot FireBeetle series is the low-power consumption micro-controller intentionally designed for Internet of Things (IoT) projects. FireBeetle Board - ESP32 integrates a Dual-Core ESP-WROOM-32 module, which supports MCU and Wi-Fi & Bluetooth dual-mode co [\[Product Details...\]](#)
