Ozobot Bit (Titanium Black) - world's smallest smart robot

SG\$59.70

Product Description:

Expand your child's horizons with the help of Ozobot Bit, *the tiny smart robot*. There is no end to the possibilities, as your child creates a different landscape of adventures, games and coding with Ozobot Bit. Imagine, a learning toy that opens the doors of computer science, STEM Education, robotics and coding, making your child one step ahead of the learning curve in school and in life.

Starting with color markers, Ozobot takes kids on a fun and mesmerizing experience through creative drawing, problem solving and group challenges by coloring code commands in the form of basic color combinations.

Ozobot Bit's ability to learn your programs, and then play them back is a big game changer to how young minds play and learn. [OzoBlockly](#) - a web-based visual editor - offers five step up modes from icon-based to loops, logic and equation blocks to appeal to young kids and even to challenge the seasoned programmers.

Ozobot Bit is a multi-award winning toy robot including 2015 Kapi's Best Robot toy, 2015 Toy of the Year (TOTY) finalist and CES 2015 Editor's Choice award winner.
